

**Fabriulous Artisan Sourcing
Handmade with Love**

Our Value

Fashion is well on the road to change, and seeks a coexistence between strong design statements and social/environmental considerations, throughout a product's life cycle. Traditionally crafts made within indigenous communities are labor intensive, high-quality, and one-of-a-kind. Artisanal products can be valued by consumers, while simultaneously empowering the maker.

Our exist to support provide responsible sourcing solutions to the global fashion market while create sustainable employment for women artisans by revitalizing the craft of making textiles and collaborating to innovate in product and design.

Pillars

Innovation

- We directly work with the local artisan community to provide you opportunities to convert your creative ideas into collaborative design interventions, to bring innovative handicraft products and stories to the global market.

Sustainability

- We source 100% from Guizhou local ethnic regions for raw materials, and a wide breadth and in-depth of handicraft resources. From seeds to products, all the processes are delicately made by hands with low carbon emission, and less energy consumption.
- We celebrate traditional handicraft culture and support the local community by closely collaborating with skilled artisans and weavers, providing them with job training, work opportunities and incomes.

What We Offer

Start from scratch, create innovative, meaningful and impactful pieces. We also provide upcycling service, bring you creative inspirations by vintage pieces.
